Subject: RE: DEQ Comments on Concrete Sampling and Analysis Plan removed.txt

Hi Lisa,

As discussed today, we have reviewed the letter provided by DEQ and we agree that the concrete sampling results will be compared to EPA residential and industrial Regional Screening Levels. As discussed, the RSLs could potentially change throughout the sampling program. Throughout the sampling program we plan to utilize the most up to date RSLs posted on the EPA website below.

<https://www.epa.gov/risk/regional-screening-levels-rsls>

Thank you.
